**Re: Freedom of Information Law Request dated April 25, 2019**

Dear Mr. Wilson:

Please be advised that your Freedom of Information Law (“FOIL”) request dated April 25, 2019 (“April 25<sup>th</sup> FOIL Request”) submitted to the Putnam County Clerk’s Office, and directed to the Health Department, has been granted in part and denied in part on the specific ground that no responsive records exist. Your April 25<sup>th</sup> FOIL Request related to the septic system at the property located at 825 South Lake Boulevard, Mahopac, New York, wherein you asked for the following:

- Documents related to the June 25, 1991 approval; specifically, the “as-built repair sketch” that includes:
  - the location of components, tied to two fixed points;
  - system description (e.g. 1,250 gallon tank, concrete septic tank, 3 precast 6' diam x 6' deep drywells);
  - installer’s name and number;
  - document stating that proposed septic repair was completed according to conditions.

You clarified the records you sought under this request in an email dated April 30, 2019 (a copy of which is attached for reference) wherein you represented the records that you are seeking consist of the following

1. Documents associated with the June 25, 1991 approval of the sewer repair at 825 South Lake Boulevard; and
2. The "as built sketch" of the repairs that includes the location of the components, tied to two fixed points, the description of the system, the installers name and number, and a document stat[ing] that the proposed septic repair was completed according to the conditions.

Based upon this representation, responses to your clarified above two requests have been separately identified below with the corresponding response thereto.

**Response to Request No. 1:** All documents responsive to such request, to the extent that they are maintained by the County and constitute public records subject to the Freedom of Information law, have been compiled and are attached hereto. An additional search has not uncovered any other approval documents for the repair that are related to and responsive to this request.

**Response to Request No. 2:** All documents responsive to such request, to the extent that they are maintained by the County and constitute public records subject to the Freedom of Information law, have been compiled and are attached hereto. This document consists of the sketch of the system repair. An additional search has not uncovered any renderings labeled "as built" in the Health Department's records related to this request.

Very truly yours,

Dina M. DiBlasi

Senior Deputy County Attorney

cc: Hon. Michael C. Bartolotti, County Clerk  
Dr. Michael Nesheiwat, Commissioner of the Department of Health
